# BABACOGPS

**GPS tracking pays for itself the first time you use it by reducing expenses and improving productivity.**

## BABACOGPS Mapping

Satellite imagery and street-level views take away the guess work

Based on **Google**™ maps

The detailed activity map clearly displays the vehicles movement and stops. Maps include real-time traffic data, including road speed and event icons.

### Other features...

- + Stop icons display stop duration
- + Map and data on one screen
- + Customer location icons on the map
- + Map and data automatically update
- + Clicking on the report centers the map
- + Create customer locations using stops
- + Three levels of data security
- + User based startup settings
- + Real-time email alerts

## BABACOGPS Reports

BabacoGPS comes standard with a host of reports based on timely and accurate GPS data.

- |                     |                 |
|---------------------|-----------------|
| + Fleet Status      | + Sensor Events |
| + Fleet Summary     | + Idling        |
| + Detailed Activity | + Speeding      |
| + Mileage by State  | + Maintenance   |
| + Begin Day/End Day | + Location      |

### Reports can be...

- + Based on fleets or individual vehicles
- + Based on single day or multiple days
- + Filtered to produce custom reports
- + Configured to span days for night shifts
- + Printed, exported and turned into pdf's
- + Sorted by column in any order

### Data can be...

- + Exchanged with any third party package or corporate legacy system using the BabacoGPS Data Exchange Server

TOTALS	02:25:33	98.17	08:04:54	8	01:00:36	02:08:49	6	00:21:28

The Start/Stop report turns data into valuable business information that can be used to eliminate excessive idling, route drivers more efficiently and determine driver productivity. All in one simple to read report.

# Driver Dispatch

The driver is presented with a screen displaying all the stops on their route. Once a stop is selected, the driver simply clicks the green GO button and the System takes over from there.

The driver is guided to the stop by voice commands and is kept off non-commercial roads if driving a non commercial vehicle.

Once the driver hits go, the SmartAntenna takes over from there. A message is sent to dispatch updating the stop start time. When the driver arrives at the stop the system automatically sends the arrival time to the server. When the stop is departed the system once again automatically sends the Job completed time and the driver simply selects their next stop on the route.

No more I forgot to hit the arrive button when I got there and no more I forgot to tell you when I left. Its effortless and accurate.

#	Name	Address	Comments	Status	Delivered	Started	Arrived	Completed
1	BCF-737	486 Hennis Rd Vineland NJ 08360		Completed	4/1/2009 6:24:59 AM	4/1/2009 9:18:54 AM	4/1/2009 9:10:42 AM	4/1/2009 9:47:29 AM

## Expand Beyond GPS Tracking

Communicate with your fleet using BabacoGPS' Tracking and Fleet Management web portal.

What do you get when you connect the SmartAntenna to one of Garmin's navigation devices?

- + Two-way text messaging
- + Real-time job dispatch/monitoring
- + Directions based on your vehicle type
- + Route management and route scheduling by driver
- + Simply the most functional and cost effective solution on the market today

### Main Dispatch Menu

### Message Inbox

### Dispatched Jobs

It's smaller than a credit card

## SmartAntenna

**The SmartAntenna was designed and is based on 25 years experience to...**

- + Eliminate Tampering
- + Simplify Installation
- + Improve GPS Accuracy
- + Calculate Mileage Accurately
- + Work in Large Cities
  - + Connect to Data Terminals
  - + Always be Powered
  - + Always Monitor Sensors
  - + Report its Health Every Hour
  - + Be Over-the-Air Configurable
  - + Be Over-the-Air Updatable

### Mobile Data Collection

### Hours Of Service

### Temperature Monitoring

### Data Integration

**Stop Idling and Save on Fuel . Stolen Vehicle Recovery . Eliminate Employee Side Jobs  
Reduce Insurance Liability . Improve Customer Service . IFTA Reporting Simplified  
Reduce Employee Overtime . Expedite Billing & Collections . Dispatch and Route More Effectively**
