

BABACO®

TRUK-LOK I®

TRUK-LOK I® Unique Features

The TRUK-LOK I® is Babaco's® original design in the TRUK-LOK® series. It is designed for roll-up, double barn, and swingout doors and is available for both rear and side doors. The TRUK-LOK I® is constructed with a high security cylinder which is designed to protect against any unauthorized access. The TRUK-LOK I® is available for a variety of truck bodies including dry, insulated and refrigerated. The Babaco® TRUK-LOK I® uses a high security restricted lock and keyway that can be made to fit your needs and can be keyed to a master or alike upon request. To open the door the driver must unlock the TRUK-LOK I® with a Babaco® key, the door can remain open for loading and unloading, every time the door is closed by the driver the door automatically locks and will not open again until it is unlocked properly with the Babaco® key. This feature ensures that your cargo is safe and secure at all times. The TRUK-LOK I® is installed permanently inside the door of the vehicle making it safe from the environment and vandalism. Contact Babaco® today for more information about the TRUK-LOK I®.

Benefits & Features

- Made from a tough durable high-tensile cast material and tested to withstand severe shock, weather, stress and vandalism
- Mounted and Installed permanently inside the vehicle and does not utilize cargo space
- Auto locking to ensure cargo security
- Optional interior quick release available
- Requires no welding to install
- For roll-up and swing-out door applications
- Available for a variety of truck bodies including dry, insulated, or refrigerated
- Integrates a high security cylinder with a Babaco restricted keyway eliminating the ability for drivers to duplicate keys
