

BABACO®

TRUK LOK IV®

The TRUK-LOK IV – BULLET-LOK® provides specialized protection against truck break-ins. Its stainless steel construction and restricted keyway is the perfect solution for trucks or trailers with swing-out, barn or hinged doors. Do not rely on a vulnerable hinged-door lock handle with an easily shimmed padlock anymore!

The TRUK-LOK IV – BULLET-LOK® comes in two versions: Manual or Automatic.

In the Manual version of the TRUK-LOK IV – BULLET-LOK®, the bullet itself is not welded but rather attached to a 16" Chain allowing the versatility of swapping the bullet from truck to truck.

Benefits & Features

- Made of tough, durable stainless steel, tested to withstand severe shock and weather.
- Replaces the vulnerable hinged-door lock handle with an easily shimmed padlock
- Uses a high security, restricted keyway. Keys cannot be duplicated anywhere except at BABACO®.
- Lock cannot be shimmed or bumped.
- The key code can be made to fit your needs; master keyed on demand.
- Can be installed or retrofitted to any vehicle in minutes.
- Can be combined with BABACO's® One Key System: Full integration with the alarm system.

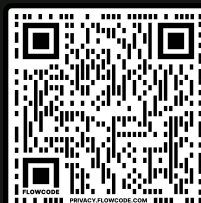

Every day we set out to prove our slogan to the world;

“The most trusted name in cargo security!”
