| Device Battery Status | |

DEVICE BEHAVIOR

Reporting Frequency:
Every 30 seconds while in motion and Ignition On
Every 6 hours while stationary and Ignition Off
Every 60 seconds Ignition off while in motion
Installation Time: <1hr

SPECIFICATIONS

Waterproof: IP67
Dimensions: 94 mm × 55 mm × 23 mm
Weight: 103g
Battery: Rechargeable 3.7V, 220mAh Li-ion Battery
Battery Life (estimated): 3 Days
Operating Temperature: -40C~ +80C

DEVICE SUPPORTS

Internal Antennas
Inputs: 2
Output: 1

- COVERT INSTALLATION
- EQUIPMENT UTILIZATION
- THEFT PROTECTION
- COST EFFECTIVE
- LOCATION MANAGEMENT
- REAL-TIME MONITORING
- ALERTS & NOTIFICATIONS
- DRIVER BEHAVIOR
- IP67 RATING
