

## VT 3500 VIDEO TELEMATICS

The VT3500 is a highly integrated device combining active anti-collision and alarm systems for abnormal driver behavior with alarm prompts and mobile DVR functions. The device detects and recognizes vehicles, lanes and traffic scenarios through cameras and AI algorithms.

### THE VT3500 SUPPORTS

FNOL alerts	GPS Speed
Motion Detection	Vehicle Idle
Harsh Acceleration	
Harsh Braking	
Harsh Cornering	
Impact Detection	
Device Battery Status	
GPS Location	

### DEVICE SUPPORTS

intelligent Fill Light & Backlight  
Audio Recording Supported by ADAS & DSM  
WiFi & Bluetooth (BT4.1)  
Positioning, Speed Detection & Time Synchronization  
2x TF Card, 32G/64GB/128GB/256GB capacity & hot plugging

### DEVICE BEHAVIOR

Video Recording: Powered/Timed/Event Based  
Alarm: 0-60min  
Alarm Recording: 0-30min

### SPECIFICATIONS

Dimensions: 87.5mm (L) x 120mm(W) x 40mm(H)  
Operating Temperature: -40°C ~ +70°C

- INTERNAL BATTERY
- HD IMAGES
- G-SHOCK SENSOR
- ALERTS & NOTIFICATIONS
- DRIVER BEHAVIOR
- LOCATION MANAGEMENT
- FACIAL RECOGNITION
- THEFT PREVENTION
- FORECAST RISKS
